

Intel is pleased to provide this design for a support bracket for the PCI Express* (PCIe*) 3.0 Characterization Board (*PCI Express* 3.0 Connector High Speed Connector Evaluation Board (CEB)*, 325029-002). This bracket can be used with *PCI Express* 4.0 Connector Measurement Board File*, 337173-001.

Please Note:

This design is used strictly to help in the characterization of PCIe* 3.0 and PCIe* 4.0 connectors, and is provided to the user as-is. It is intended to be used with the Intel design PCI Express* 3.0 Connector High Speed Connector Evaluation Board (CEB) (document number 325029-002) and the Intel design PCI Express* 4.0 Connector Measurement Board File (document number 337173-001). There is no training or support available for this design, and no updates or improvements are scheduled or guaranteed. Intel assumes no liability for the improper use of this design.

You may not use or facilitate the use of this document in connection with any infringement or other legal analysis concerning Intel products described herein. You agree to grant Intel a non-exclusive, royalty-free license to any patent claim thereafter drafted which includes subject matter disclosed herein.

All information provided here is subject to change without notice. Contact your Intel representative to obtain the latest Intel product specifications and roadmaps.

Intel technologies may require enabled hardware, specific software, or services activation. Check with your system manufacturer or retailer.

No computer system can be absolutely secure. Intel does not assume any liability for lost or stolen data or systems or any damages resulting from such losses.

No license (express or implied, by estoppel or otherwise) to any intellectual property rights is granted by this document.

The products described may contain design defects or errors known as errata which may cause the product to deviate from published specifications. Current characterized errata are available on request.
